Québec City
Canada

UNIVERSITÉ
LAVAL

A unique university experience in North America

Life in Québec City is undeniably unique. Europe meets North America in this enchanting city, giving rise to a distinctive history, lifestyle, and architecture. In summer and winter alike, the city boasts a culinary and cultural scene as diverse as its residents. The St. Lawrence River and the view of the surrounding Laurentian Mountains are a reminder that nature and wide-open spaces are close to downtown, quickly and easily accessible whenever you need to get away.

Voted “best Canadian destination” by *Travel + Leisure Magazine* readers in 2024, for the 9th consecutive year

4th safest city in the world, according to *Numbeo* in 2021

Canada is the 4th best country in the world for studying abroad, according to *Educations Media Group’s* 2023 rankings

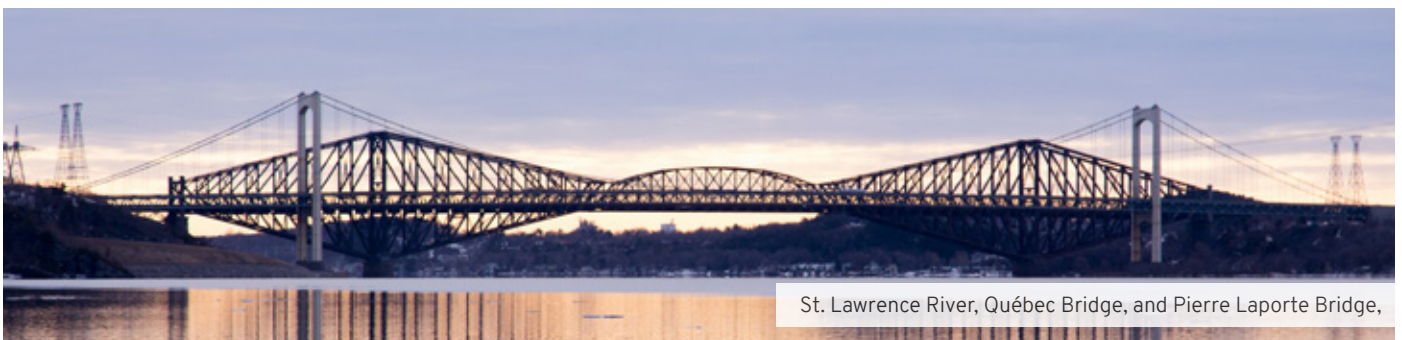

Old Québec

One of the most exciting cities in the country

UNESCO World Heritage City and City of Literature

Québec City, the capital of the province of Quebec, is an ever-growing national economic hub. With one of the lowest unemployment rates of any major city in Canada, the city is a great place for students who want to work while in school or enter the job market after graduation. Québec City is also globally oriented, as reflected in its international airport and established cultural communities.

Charles-De Koninck building

A unique place to learn

The Université Laval campus offers an outstanding learning environment. The 1.8 km² campus consists of 40 buildings linked by a network of underground corridors so you can avoid bad weather when travelling from building to building. Over 60% of the area is green space and woodland, criss-crossed by footpaths and bike paths.

The campus is full of hidden treasures, including the magnificent Roger-Van den Hende Botanical Garden teaching and research facility, as well as works of great artistic, cultural, and heritage value decorating its buildings, squares, and gardens. The library—one of the largest in Canada—has been recently renovated to create a bright, spacious, and colourful atmosphere.

The campus is fully integrated into the community, with downtown near at hand and great public transit connections to put all the activities, attractions, and services of historic Québec City within easy reach. It is also just steps from three shopping malls, one of which is the largest in Eastern Canada.

A few university buildings (the School of Architecture, the School of Art, and the School of Design) are located off campus, in inspiring neighbourhoods with vibrant art scenes.

With plenty of outdoor infrastructure, the University makes its campus accessible to the entire community so everyone can take part in activities to improve their physical and mental health.

A team is on hand in the residences and on campus to keep the university community safe and provide assistance if necessary.

Avenue des Sciences Humaines

State-of-the-art facilities

Université Laval provides its community with many state-of-the-art resources and facilities to promote rich and comprehensive education in all areas of knowledge.

Among these facilities are specialized design labs and environmentally friendly, high-tech greenhouses; innovative teaching rooms at its Apprentiss Centres, which accurately mirror emergency, operating, and labour and delivery rooms; and the Montmorency Forest, the world's largest teaching and research forest.

Active learning rooms encourage teamwork and provide a stimulating space where students can fully engage in the learning process.

Affordable student residences

Every year, nearly 2,300 students choose to live in one of the University's four residence halls, one of which is only for women. All of the residences have common areas where you can study, socialize, and have fun. Residents live in an environment that encourages academic success, where bonds are forged between people from all walks of life.

The largest university sports centre in Eastern Canada

The PEPS (Pavillon de l'Éducation physique et des sports) is the region's leading centre for recreational and competitive sports. The PEPS includes a state-of-the-art gym, two Olympic-sized swimming pools, indoor and outdoor tracks, two skating rinks, a soccer stadium, and an American football stadium, as well as a clinic offering specialized sports care.

A diverse, inclusive, and welcoming campus

Choosing Université Laval means enjoying an equitable, diverse, and inclusive learning environment where you can reach your fullest potential. We go to great lengths to ensure that everyone feels welcome, respected, and valued. Training is offered to the entire university community to help raise awareness of equity, diversity, and inclusion and build a culture free of discrimination.

Resources to help you succeed

Cost of studies

Competitive tuition fees combined with a moderate cost of living compared to most other North American cities make Université Laval a financially accessible study destination.

Tuition fees are calculated based on the student's profile and the number of credits in which they are enrolled for a given semester. Exchange students pay their tuition fees to their home institution. However, other costs are to be expected, such as health and hospitalization insurance and tuition fees for French as a second language courses.

Careful financial planning is essential to cover all the costs associated with a year of study, so the Student Awards and Financial Aid Office has developed resources to help students with their budgets.

Jobs and internships

Université Laval's Professional Development Service builds bridges between employers and the university community. It provides access to tools and training on a range of topics (like résumés, cover letters, and preparing for job interviews), helping you polish your application and get to know the Quebec labour market better.

Integration and support

Students receive a continuum of support throughout their time at Université Laval. The Student Life Office offers immigration support and helps students from all backgrounds adapt to life in Quebec. Our certified advisors provide one-on-one support, give lectures, and more. The Student Assistance Centre also offers guidance, academic, and mental health counselling, as well as individualized support for students with disabilities.

Research for collective impact

Thanks to the far-reaching expertise of its professors and research teams, Université Laval ranks among the top research and creation universities in Canada. We pride ourselves on our interdisciplinarity, international development, partnerships, scientific entrepreneurship, and sustainable development.

The University is home to innovative and unique facilities such as the Centre for Optics, Photonics and Lasers; the Institute of Nutrition and Functional Foods; the Carré des affaires FSA ULaval-Banque Nationale; and the Digital Audio Research and Innovation Lab, which includes a world-class recording studio.

Our ambition is clear: conduct inclusive, connected, and sustainable research for the benefit of communities and the planet
